

One of our employees was recently driving alone on a motorway when he became unwell. The driver parked his van safely in an emergency refuge area and found a safe place on the embankment to lay down. The driver called his supervisor and reported that he needed an ambulance. The supervisor was able to quickly provide the ambulance crew with the employee's precise location by logging onto the company vehicle tracking system.

If you have any health and safety issues that you wish to discuss contact your supervisor, line manager or Safety Advisor.

Remember there must be NO COMPROMISE where health and safety is concerned
