

Best Practice – Carl McMenamin has trailed the new Hilti Nuron VC 10M-22 Cordless Dust Extractor to great success on site at Swinton Flats. Used in conjunction with the new Hilti Nuron AG 6D-22 Cordless Angle Grinder and grinding hood it provided virtually dust free concrete grinding with the added benefit of no trailing leads/large dust extraction unit to take into the confined space.

Equipment In Use

Hilti Nuron Battery

CRL have been surprised with the effectiveness of the new Hilti kit on offer and I would like to take this opportunity to share with others.

Consider these as an alternative to “Making Do”.

Remember when it comes to health & safety we operate a NO COMPROMISE policy!!!

Don't cut corners – CUT CONCRETE!

Please feel free to contact me for further info.

Cheers
Ben Hatfield
