

# **PROCEDURE FOR RECOVERY OF AN INJURED PERSON FROM HIGH LEVEL SCAFFOLD TOWER & EMERGENCY EVACUATION**

1) Inform the person in charge

**Gerry Lister (CRL - Contract Manager) – 07827 894 580**

**Jonathan Marsh (CRL – Project Manager) – 07469 119 144**

**Nicolas Etienne (CRL – Site Manager/Engineer) – 07471 033 609**

**Philip Morgan (CRL - Senior Site Foreman) – 07825 918 573**

2) If none of the above are able to respond, follow the procedure below:

- Inform the emergency services by dialling 999 or 911
- Give your name and contact number and explain that you work for Concrete Repairs Limited
- Explain that there is an injured person located :
  - on a high level Scaffold tower or MEWP equipment at an approximate height of (up to) 5 meters (16 feet) above ground level.
- Explain the reason of the evacuation, fire emergency for example and give a brief description of the injured person if any.
- Give the address as:

CRL Site compound  
MES Environmental Limited  
Crown Street  
Wolverhampton  
**WV1 1QB**

- Instruct a man to stand at the nearest entrance point on the road to guide emergency services to the site location.
- Instruct security from the MES Environmental LTD, to guide emergency services to the site location.
- On arrival of the emergency services, make yourself known to them and stand by for further instruction.
